# Broadband Availability – Other Copper Wire Coverage

## New Mexico Broadband Program

**Population (2010 Census):** 2,059,180

**Household (2010 Census):** 901,388

**Area (sq. miles):** 121, 298

### List of Available Broadband Providers

- Cyber Mesa Computer Systems Inc.
- Leaco Rural Telephone Cooperative, Inc.
- MegaPath Corporation
- TW Telecom of New Mexico, LLC

### Available Speeds

- Maximum Advertised Download: 25 Mbps – 50 Mbps
- Minimum Advertised Download: 768 Kbps – 1.5 Mbps
- Maximum Advertised Upload: 25 Mbps – 50 Mbps
- Minimum Advertised Upload: 768 Kbps – 1.5 Mbps

### Notes

- Broadband Data: Based on data from Telecommunication Providers participating in the New Mexico Broadband Program, as of 1 October 2014
- Demographic Data: US Census Bureau 2010 Decennial Census
- Geographic Data: EDAC/RGIS (Resource Geographic Information System, [rgis.unm.edu](http://rgis.unm.edu))
- Number of households: Graph provides an estimate of county households that has access to Other Copper wire (ex: T1) Internet Service, dependent on data provided by the Telecommunication Provider. These graphs are prepared for wire-line data only (Cable, Copper Wire, DSL and Fiber).
