SECURITY AND SAFETY IN THE DIGITAL AGE
MODULE 3 – ASSESSMENT

1. How has the Internet changed our relation to explicit, violent, or inappropriate material?

2. What should you do if you receive an inappropriate, unsolicited email or phishing email?

3. How can learning more about the Internet improve your Internet security and safety?

4. How can developing additional interests that are not computer based improve your online security and safety?

5. How can we tell what Internet sites have been viewed from a computer?

6. What do Parental Controls allow you to do?
